

COLLECTION MATERIALS

90mL Cup

Multi-Purpose Swab

Biohazard Bag

Lab Requisition

Cleansing Wipe

Shipping Box
(Return Label Attached)

COLLECTION DO'S & DON'TS

✓ **DO** — Clean the genital area with soap and water before collecting the sample.

✓ **DO** — Ship your sample as soon as possible after collection. The provided steps carefully. This is optimal, however, if there is a slight delay, MicroGenDX samples are stable significantly longer than culture samples.

✗ **DO NOT** — Use a condom to collect the semen.

✗ **DO NOT** — Let the specimen come into contact with anything other than the collection cup. Including hands or any other body part.

SEMEN SAMPLE COLLECTION

STEP 1

Use the included Cleansing Wipe to clean the genital area.

STEP 2

Collect semen excretion into sterile container. If enough excretion is collected (more than a pea size amount), cap and seal the container and prepare for shipping. If you have only collected a minimal amount, proceed to step 3.

STEP 3

****Do this step only if necessary****

If only a minimal amount of semen excretion is collected (pea size amount) use the swab to collect the fluid by rolling swab through the fluid in the collection cup collecting as much fluid as possible on the swab tip.

STEP 4

Insert the swab back into the specimen tube and push until securely closed.

SEE PATIENT INFORMATION &
SHIPPING INSTRUCTIONS ON REVERSE

PATIENT INFORMATION

1. MARK SAMPLE

Use a permanent marker to write patient name, date of birth and sample collection date on the 90mL Cup or Multi-Purpose Swab Specimen Tube.

2. SIGN LAB REQ

Please have the patient sign the lab requisition form accepting financial responsibility. Be sure the physician has also signed the lab requisition form confirming consent.

3. INSURANCE INFORMATION

Submit patient face sheet and demographics with insurance information or both sides of a patient's insurance card. If this is a prepaid test skip this step.

PACKING SAMPLES FOR SHIPMENT

1. Place the 90mL Collection Cup or Multi-Purpose Swab into the center/sealable pocket of Biohazard Lab Bag.
2. Place folded Lab Requisition Form into the open back pocket of the Biohazard Bag.
3. IMPORTANT: Place only one Sample and one Lab Requisition in each Biohazard Bag.
4. Securely close the Biohazard Bag using the ziplock strip to create a continuous airtight seal.
5. Place the sealed Biohazard Bag into the MicroGenDX Shipping Box (shipping label already attached to bottom of box).
6. Close the MicroGenDX Shipping Box and seal with the clear sealing sticker or a piece of tape.
7. You can add multiple completed Biohazard Bags into a MicroGenDX Shipping Box.
